FL-02: Draw the Path: Portfolio Sitemap + Toolkit

Portfolio Sitemap

The purpose of this sitemap is to create a focused portfolio structure that guides recruiters from understanding my profile to exploring my technical work and taking action.

- **Home:** Introduces my AI Engineering profile and portfolio purpose.
- **Projects/Case Studies:** Showcases practical AI applications, automation workflows, and backend AI solutions.
- **Skills & Technologies:** Highlights technical skills and tools.
- **About Me:** Provides background, goals, and professional journey.
- **Contact:** Allows recruiters or collaborators to reach out.

Claude Project Configuration

A Claude Project was created for this portfolio build to receive AI-assisted guidance and improve the portfolio structure.

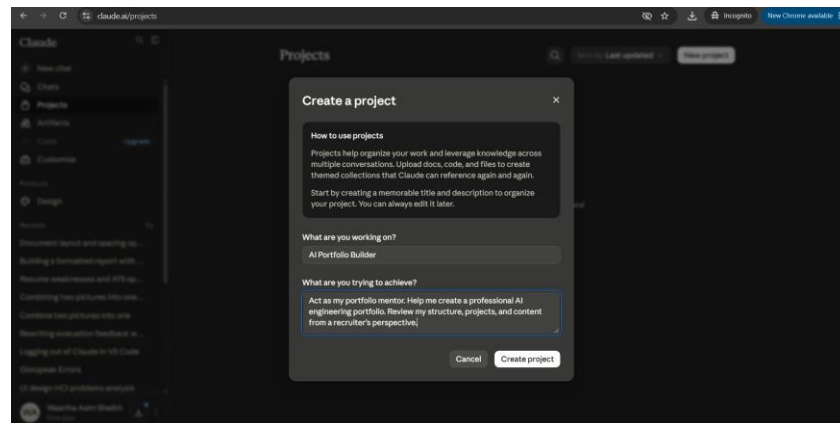

Figure 1: Claude Project Configuration

Claude Pressure Test

Claude was used as a thinking partner to review the portfolio sitemap and provide feedback on improving the structure, clarity, and recruiter experience.
